BIOGRAPHICAL SKETCH

Mark L. Wahlqvist AO, B Med Sc, MD, BS (Adelaide), MD (Uppsala), FRACP, FAIFST, FACN, FAFPHM, FTSE was educated at Westbourne Park Primary School and Unley High School in Adelaide and at Adelaide and Uppsala Universities in Australia and Sweden, respectively. He is a Consultant Physician and has held chairs in Human Nutrition, Medicine, Epidemiology & Preventive Medicine at Melbourne's Deakin and Monash Universities and been Chair of Internal Medicine at Prince Henry's Hospital, then the Monash Medical Centre, in Melbourne. He was President of the International Union of Nutritional Sciences from 2001 to 2005. He was a member of the Melbourne group which drew up the inaugural constitution of the ANF, the Australian Nutrition Foundation. During his time as National Chair of the ANF (1995-2001), its re-badging as Nutrition Australia was realized. Nutrition Australia became the secretariat for FANO (the Federation of Australian Nutrition Organizations). He played a key role as Foundation Chair of the WMCACA (Weight Management Code Administration Council of Australia) for some 15 years and was a Board member of ANZFA, the Australian and New Zealand Food Authority (now FSANZ) and Foundation Chair of the Food Safety Council of Victoria. He chaired the Australian Academy of Science National Nutrition Committee (2002-2006). He chaired the FAO Centre of Excellence at Monash University and was a Member of the WHO Nutrition Advisory Panel for many years. He has been Director of the APHNC (Asia Pacific Health & Nutrition Centre) at the MAI (Monash Asia Institute) and an Honorary Professor in the Faculty of Medicine at Monash University, a Principal Investigator at the National Health Research Institute (NHRI) in Taiwan and Honorary Professor of Food & Nutrition Science of Zhejiang University, Hangzhou, China. He has been Editor-in-Chief of the Asia Pacific Journal of Clinical Nutrition for most of its 25 year history and is currently Emeritus Professor at Monash University, Visiting Professor at NHRI, Honorary Professor at Deakin University and Adjunct Professor at LaTrobe University. His ongoing research interests include eco-nutrition and food systems, migration and cross-cultural health, population health and ageing. He was awarded the Charlotta Medal of the Emigrant's Research Institute in Sweden in 1994 for his contributions to migrant studies. His achievements have been recognised by awards or honors from the Australian, British, American, Chinese and Taiwanese Nutrition Societies, the Australian Institute of Food Science and Technology and the Australian Nutrition Foundation. On Australia Day, January 26th 2000, he was made an Officer of the Order of Australia (AO). He has had a close association with the SEAMEO-TROPMED Centre for Community Nutrition in Jakarta since its inception and is an Honorary Batakese, a title conferred to honour his contributions to the health of Batakese women and children.

He and his first wife, Dr Soo Sien Huang, a fellow medical student and mother of his 2 children, Ingmar Wei-Tzu Wahlqvist and Kerstin Yih-Fen Wahlqvist, who died in 2004, married in Singapore in 1967. He has married again to Professor Meei-Shyuan Lee in Taiwan. He enjoys music of almost every kind, current affairs and understanding his grandparents through genealogy. He enjoyed his farm at Inverleigh in Victoria, Australia, for as long as he could. His grandchildren, Gustav Kang-Ming, Otto Yong-Ming, Oriane An-Yu and Malia Ai-Yu are his great hope. He has no religion but considers himself to be spiritual in his belief that there is a 'connectedness' between humans past, present and future, all earthly things and cosmological phenomena, which we have yet to understand.
